EXPLORING TAMIL NADU

Mahabalipuram – A City Carved in Stone

Mahabalipuram, also known as Mamallapuram, is one of the most fascinating historical places in Tamil Nadu.

Located along the Bay of Bengal, it is famous for its beautiful stone temples, sculptures and monuments built by the Pallava kings.

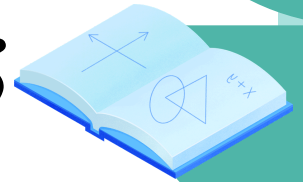

The Shore Temple is one of its most famous landmarks, standing proudly beside the sea. The Pancha Rathas, or Five Rathas, are impressive monuments carved from huge rocks. Another remarkable sight is Arjuna's Penance, a giant stone sculpture filled with people, animals and mythical figures.

Mahabalipuram was once an important ancient port and is now a UNESCO World Heritage Site. Its magnificent carvings show the incredible skill and imagination of ancient Indian sculptors.

A visit to Mahabalipuram feels like stepping into a history book—but one made entirely of stone! ✨

Dr. Sarvepalli Radhakrishnan was one of India's most distinguished scholars, philosophers, and the second President of India. When his students wanted to celebrate his birthday, he suggested that the day instead be observed as Teacher's Day as a tribute to teachers.

GUJARATI

ગુજરાતી

★ Gujarati is a rich Indo-Aryan language that evolved from Sanskrit and local Prakrit dialects around the 12th century.

★ The Bombay Samachar, started in 1822 in the Gujarati language, is the oldest continuously operating newspaper in India.

★ Gujarati literature has won 4 Jnanpith Awards, which is India's highest and most prestigious literary honour.

★ The script dropped the shirorekha (the top horizontal line) ,so that historic merchants could write fast cursive in accounting books.

★ Unlike Hindi, Gujarati uses three distinct grammatical genders: masculine, feminine, and a unique neuter gender.

ACCIDENTAL DISCOVERIES

Amazing things are found by accident

SAFETY GLASS found in 1903

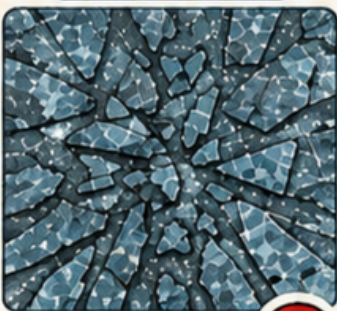

In 1903, Benedictus accidentally dropped a glass flask coated with celluloid film

To his surprise, the glass cracked, but **did not shatter!**

Normal Glass

Breaks into sharp pieces

Safety Glass

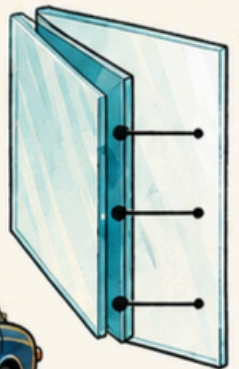

cracks but stay together

The Invention

He used the same idea for car windows - two layers of glass with a plastic layer in between

Why It is Important?

- ✓ Keep people safe
- ✓ Reduce injuries
- ✓ Used in cars, buildings, aircrafts
